

1965-66 MUSTANG DETAILING

•Unpainted natural finish parts or attaching parts and assemblies•

A low luster, clear acrylic finish should be applied to unpainted metallic items to prevent corrosion.

Many parts which appear to be clear, actually have a phosphate coating. If rust and corrosion are not excessive, steel wooling with a strong solvent is preferred. If you must sandblast, use a clear coating to restore natural appearance and prevent rust.

|---------------------------|---|
| Master Cylinder | Door Locks & Strikers |
| Steering Linkage | Complete Exhaust System |
| Idler Arm | Alternator |
| Ball Joints | Fuel Tank |
| Fuel Pump | Fuel Tank Filler Neck |
| Clutch Linkage | Universal Joints |
| Fan Spacer | Alternator Bracket |
| Brake Junction Block | Generator Bracket |
| Brake Proportioning Valve | Power Steering Pump Bracket |
| Steering Gear Box | Air Conditioner Compressor Bracket |
| Transmission Cross Member | Fender Bolts (except inner fender under hood) |
| Emer. Brake Linkage | Hood Bolts |
| Drive Shaft | Hood Hinge Bolts |
| Exhaust Hangers | Hood Latch Bolts |
| Brake & Gas Lines | Front & Rear Valance Bolts |
| Hood Catch & Stud | All Suspension Attaching Bolts |
| Hood Latch | Shock Tower Brace Bolts |
| Accelerator & Linkage | Air Cleaner Wing Nut |
| Transmission | Support Braces Attaching Bolts |
| Bell Housing | Shock Mounting Bolts |
| Shifter Linkage | W/W Bag Retaining Bolts |
| Hood Hinges | Voltage Regulator Bolts |
| Windshield Washer Pump | Starter Solenoid Bolts |
| Carburetor Spacer | Grille Attaching Bolts |
| Oil Pressure Sending Unit | Motor Support Bolts |
| Rear Spring Shackles | All Engine Accessory Bracket Bolts |
| Differential Yokes | Radiator Bolts |
| Disc Brake Assembly | Differential Nuts |
| Trunk Lock | Wheel Cylinder Bolts |
| Trunk Lock Striker | Wheel Cylinder Bleeder Screws |
| Taillight Bodies | Rear Spring Mounting Bolts |
| Air Conditioner Lines | Taillight Housing Nuts |
| Parking Light Bodies | Fuel Tank Bolts |
| Power Steering Bracket | Fuel Tank Filler Attaching Bolts |
| (67/68) | |

•PARTS & COMPONENTS TO BE PAINTED CHASSIS BLACK•

| | | |
|-------------------------|---------------------------|----------------------|
| Undercarriage | All Support Braces | Rear Axle Housing |
| Front Lower Control Arm | Heater Motor | Front Cross Member |
| Upper A Frames | Radiator | Brake Backing Plates |
| Coil Springs | Radiator Support | Battery Tray |
| Spring Shields | Fan | Battery Hold Down |
| Fender Wells | Fan Pulley | Bumper Braces |
| Shock Mounts | Hood Lock Support & Brace | Generator |
| Inner Fenders | Fan Shroud | Starter |
| Fire Wall | Crank Shaft Pulley | Undercarriage |

Use Ford reconditioning black #B8A 1713A (available in gallons only).

Differential should be painted red oxide. Use Sherwin-Williams JET SPRAY EZR 27.
